Education

Shershah Engineering College, Sasaram
B.Tech in Computer Science and Engineering

Oct 2022 – May 2026

RB College, Dalsingsarai
Intermediate – Science (PCM)

May 2018 – July 2020

JPNS Narhan
High School

March 2017 – April 2018

Technical Skills

Programming Languages: Python, Java, C, C++, JavaScript

Web & Backend: Node.js, Express.js, React, Flask, PHP, Bootstrap, REST APIs, JWT Authentication

Machine Learning & Data: TensorFlow, Keras, CNN, XGBoost, Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn, OpenCV

Database Management: SQL, MongoDB, JDBC

Cloud, SAP & Tools: AWS (Certified – Data Engineering & Prompt Engineering), SAP ABAP, SAP Analytics Cloud, SAP Business Data Cloud, Power BI, Tableau, Git, VS Code, IntelliJ, Spyder, Arduino IDE, Google Colab, Jupyter Notebook

Experience

Cloud Computing Intern — Aagaaz Training Centre Pvt. Ltd.

Dec 2025

Remote

- Completed a 4-week internship with practical exposure to **cloud concepts, virtualization, and cloud service models**.
- Worked on hands-on assignments and assessments related to cloud infrastructure.
- Achieved **88% overall performance** in the internship evaluation.

Signal & Telecommunication Intern — East Central Railway (ECR), Danapur Division

Jun 2025 – Jul 2025

Danapur, Bihar, India

- Gained hands-on experience with **Optical Fiber Communication (OFC)**, Telephone Exchange, PRS/UTS, Public Announcement System, and Mobile Train Radio Communication.
- Learned railway communication infrastructure, network operations, and **maintenance procedures**.

Robotics Intern — InfinityCore Technologies (BlinkSkills)

Jan 2024 – Feb 2024

Remote

- Gained exposure to **robotics fundamentals and automation concepts** through hands-on assignments.
- Achieved **92% in the internship assessment**, demonstrating strong technical understanding and learning ability.

Projects

EcoSentinel — IoT & Wildlife Conservation Platform | *React, Node.js, Express, MongoDB, Socket.io, JWT*

- Built a full-stack **MERN application** for real-time wildlife tracking using simulated IoT/GPS collars with live map visualization using Leaflet.
- Implemented **Socket.io** for real-time alerts on geofence breaches, abnormal vitals, and low battery — with **role-based JWT authentication**.
- Developed **REST APIs** for animal tracking, alert management, and an IoT simulator sending GPS/biometric data every 5 seconds.

Brain Tumor Detection using MRI Images | *Python, Deep Learning, TensorFlow, Keras, CNN, OpenCV*

- Built a **CNN model** to classify brain MRI scans as Tumor or No Tumor using TensorFlow/Keras with 4 Conv+MaxPooling blocks and Batch Normalization.
- Applied **data preprocessing, augmentation, and Dropout regularization** on the Kaggle Brain MRI dataset to improve accuracy and generalization.
- Evaluated the model using a **confusion matrix, accuracy/loss plots, and a classification report**; saved the trained model as brain_tumor_model.h5.

Cricket Score Predictor | *Python, XGBoost, Pandas, NumPy, Scikit-learn*

- Built an ML model to predict final cricket match scores using historical data and live match conditions (**runs, wickets, overs, run rate, teams**).
- Applied an **XGBoost Regressor**; preprocessed and cleaned large cricket datasets before model training for accurate predictions.
- Designed for use by analysts, fantasy league users, and commentators for real-time match analysis.

Certifications

- **AWS** – Data Engineering on AWS: Foundations, AWS Training & Certification, August 2026
- **Cisco Networking Academy** – Data Analytics Essentials (Excel, SQL, Tableau, Data Visualization & Storytelling), August 2026
- **JPMorgan Chase & Co.** – Software Engineering Job Simulation (Kafka Integration, REST API Integration & Controller, H2 Integration) — Forage, July 2026
- **SAP Learning** – Learning Basic ABAP Programming (Development Environment, OOP, ABAP SQL, RESTful Application Programming), July 2026
- **SAP Learning** – Leveraging Advanced Features in SAP Analytics Cloud for Planning (Predictive Modeling, Business Planning) — Advanced Level, July 2026
- **SAP Learning** – Introducing SAP Business Data Cloud (Database Management, Analytics, Data Modeling), July 2026
- **AWS** – Foundations of Prompt Engineering, AWS Training & Certification, June 2026
- **Cisco Networking Academy** – Data Science Essentials with Python, June 2026
- **Deloitte** – Data Analytics Job Simulation (Data Analysis & Forensic Technology) — Forage, June 2026
- **Tata** – GenAI Powered Data Analytics Job Simulation — Forage, June 2026
- **Mastercard** – Cybersecurity Job Simulation (Phishing Email Simulation & Analysis) — Forage, June 2026
- **NPTEL (IIT Kharagpur)** – Introduction to Internet of Things, 12-week course, 60% (Jan–Apr 2026)
- **NPTEL (IIT Kharagpur)** – Soft Skill Development, 8-week course (Jan–Mar 2025)
- **Data Science and Machine Learning** – YBI Foundation
- **Python Certification** – Skills4India
